Nice Premium Toolless Architectural Speakers

Elevated Performance Architectural Speakers

Premium Toolless Architectural Speakers

Discover amazing audio performance with Premium Toolless Architectural Speakers by Nice. Designed with superior materials and engineered to deliver rich, dynamic, and crystal clear sound for modern media-home theaters, music streaming, gaming, and more. Nice Premium Toolless Architectural Speakers elevate audio performance to new heights.

1 AccuAIM™ tweeters

Proprietary AccuAIM technology enables precise, lockable tweeter positioning for enhanced phase accuracy.

3 Advanced materials

Black Kevlar woofers and aluminum/magnesium tweeters* deliver explosive dynamics and a rich soundstage.

4 XMag™ pole piece

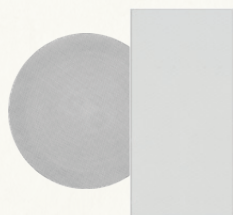

Longer pole piece on every model maintains a stable magnetic field for the driver, ensuring precise linearity and accurate sound reproduction.

2 Proportionally massive tweeters

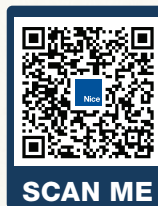

Larger tweeters—up to 30mm*—lower the crossover point for exceptional imagery and detail.

5 Toolless installation

ViseLock™ by Swarm toolless mounting system provides secure, fast installations—up to 75% faster than conventional mounting systems.

Paintable low-profile grille included with each speaker
